Student Speak

Rishika Sandeep Meherr

“ The Trainers at Career Vision Computer Education are well-Trained and adjust their teaching style based on the calibre of the student. Programs start every two months and that allows new students to join the program whenever they wake up and realise that this kind of technical training is a must along-side college education.”

Ritesh Khadka

“ The one-faculty-per-student policy is just fantastic. that allows me to learn at my pace, and also allows me to adjust my college schedule accordingly. I have been at Career Vision Computer education for 10 months now, and I look forward to attending my class at career vision computer education as the ambience and faculty make me feel comfortable.”

Siddhika Tekriwal

“ My Parents made me join Career Vision Computer education . at first I looked at it just as a class - but soon I realized that what I am learning is extremely industry-relevant. completing a diploma at career vision computer education along with my college, has ensured that when I go for my first job interview, I will be a preferred candidate. hoping for a great start to my career!”
